

# How to build your own Esso Station diorama

## When printing the template:

1. From the web browser:
  - a. Select "Print" and view "More settings"
  - b. Under "Scale", select "Fit to paper"
2. From Adobe Acrobat:
  - a. Select "Print"
  - b. Under "Page Sizing & Handling", select "Fit"

## Step 1: Build the base of the Esso Station

1. Cut off the white borders except for the side that is specified on the base diagram.
2. Glue the two base pieces together by placing the first base (with the word "IN") on top of the white border on the second base (with the word "OUT")

## Step 2: Cut out parts of the Esso Station

1. Cut out all the Esso station pieces along the straight line marked in the diagrams.
2. Cut the parts in order from page 3 to 7, starting with A1, A2, B1, B2, C, D, CANOPY, IN, OUT, to AIR.
3. Fold along dotted lines on all the parts labeled in the diagrams.

## Step 3: Set up the Esso Station

1. Apply glue on areas as marked in the diagrams and set the parts in place.
2. Use a glue to secure the built pieces to their corresponding letters on the base.
3. Assemble all the pieces in order starting from A1, A2, B1, B2, C, D, CANOPY, IN, OUT, to AIR.

**And there you have it – your very own Esso station!**

**Grab your toy cars, start "driving" them around the newly built Esso station and have fun!**
